

% difference in emissions relative to non

NGFS Members vs. Non-Members

Predicted emissions gap at low, mean, and high CBI

● GHG per Capita ● GHG per GDP per Capita ● Total GHG Emissions

Hollow symbols = non-members baseline (0% by construction); filled symbols = NGFS members
Circle = Total GHG Emissions; square = GHG per GDP per capita; triangle = GHG per capita
Bars show 95% CI on the member-vs-baseline gap.
